TURMERIC (The New Kale)

Nature's wonder drug is known for its healing, detoxifying & anti-inflammatory properties. With a bitter, slightly warm taste, turmeric is traditionally used in curries, but now features in tonics, vegetable-based yoghurts, and the popular Turmeric Latte.

A great morning or afternoon pick me up, many believe turmeric lattes or "golden milk" assist with anything from colds to weight loss. Rapidly gaining mainstream popularity, even Starbucks UK is jumping on the spice train!
