FEATURES

Heavyweight 3.7g
Low Dermatitis Potential
Powder-Free
Fingertips-Textured
Standard Cuff 9.5"
Medical Grade with AQL 1.5,

Provides skin protection giving you piece of mind if you have dermatitis.

The nitrile rubber has superior strength so they won't break and tear like cheap latex and vinyl gloves.

Soft and desirable so they are nice to wear.

High resistance to chemicals so your skin is safe when cleaning up with those heavy duty chemicals.
